

Dear Rising Second Graders of Room 209,

My name is Megan Rodriguez and I am so excited to be your child's teacher next year! I graduated from Temple University with a Pre-K through 6th grade certification, received my reading specialist Master's Degree from Holy Family University and I am also a National Board Certified teacher. I have been a teacher at Dobson for 9 years and I am looking forward to working with your family! Each year I strive to learn and grow as a teacher. Although I have spent a majority of my career in grades 4 and 5, I started at Dobson in First Grade. I am looking forward to working alongside Ms. Heyward and creating a beautiful second grade experience for your child. I have two children, a 6 year old son entering First Grade and a 4 year old daughter entering Pre-k. I also have 3 dogs, 2 conure birds and a bearded dragon! I am well known at Dobson for my love of animals and my classroom pets! Your children will help name our newest classmate in the new year - a baby leopard gecko! Through our science curriculum they will learn how to create a bioactive terrarium that will become its very own, fully functioning ecosystem. This aligns perfectly with our second grade science units. Coming from the higher grades, I know how important the foundational years are. I am so eager to be a part of the team that will help to build that conceptual understanding and nurture students' love of learning!
